

OnPart Fractional Collision Parts Manager Packages

Assistant

Light-touch support to keep operations steady

- Inventory setup review (loss leaders, certification checks)
- Zip code mapping audit (deliverable vs. shippable, UPS/FedEx validation)
- Basic pricing/margin review vs. benchmarks
- Monthly health check (are things up to date?)

Who it's for: Suppliers needing tactical help, not heavy oversight

Value: Low-cost coverage that frees your team from basic mistakes

Manage

Hands-on management across platforms and processes

- Everything in Assistant, plus:
- Ongoing margin monitoring & dynamic discount setup
- Platform compliance checks (CCC, OPS, Mitchell, PartsTrader, etc.)
- Shop relationship tracking (high-value accounts, churn detection)
- Monthly reporting dashboards

Who it's for: Owners or executives who want reliable day-to-day oversight without hiring a full-time manager

Value: Smooth operations, reduced risk, better sales velocity
